

We Show Up

We Bring It

We Do It Right

Alomere

Alomere Health, is a general medical and surgical hospital in Alexandria, MN. It is accredited by the Healthcare Facilities Accreditation Program (HFAP), has a Level III trauma center and has twice been named as one of the Top 100 Hospitals by Thomson Reuters.

THE CHALLENGE

The design of the building was an intricately planned process. Not only did it necessitate thorough measuring—to ensure that every part of the structure fit together seamlessly and accurately—but it also required a high degree of coordination with additional trades.

OUR SOLUTION

Our approach to these complex and interdependent tasks was centered around top-notch communication. Recognizing the essential role of precise and timely information exchange in a project of this magnitude, we implemented streamlined communication strategies. This efficient communication strategy ensured that the measuring, coordination, and layout plans were effectively executed, culminating in a building design that fully met our objectives and exceeded client expectations.

RESULTS ACCOMPLISHED

The ultimate result of our rigorous planning and excellent communication was a visually captivating finished structure that flawlessly echoed the architect's original vision. Every measurement, coordination, and layout plan was actualized perfectly, bringing the intricate blueprint to tangible life.

Why was Brin Glass best suited for the work?

“Eye for detail and experienced glaziers were needed to accomplish the completion of this project.”
