

We Show Up

We Bring It

We Do It Right

MAC Baseball Field

The Municipal Athletic Complex is made up of five components with (2) baseball fields, (2) Ice Arenas and an executive Par 30 golf course. The MAC hosts the St. Cloud Rox which is a team from the collegiate "wooden bat" Northwoods League. The Rox play 35+ games a year each summer.

THE CHALLENGE

The existing railing at the facility obstructed a significant portion of the field view, particularly for wheelchair users who wished to enjoy the game.

OUR SOLUTION

We partnered with Al's Ornamental to replace the old railing. The new design features metal on the sides and clear laminated safety glass on the front, ensuring a clear viewing area for everyone.

RESULTS ACCOMPLISHED

The installation of the new railing was a resounding success. By replacing the obstructive old railing with a modern design that includes metal sides and clear laminated safety glass on the front, we significantly improved the viewing experience. Wheelchair users and all spectators now enjoy an unobstructed view of the field, enhancing their overall experience and making the games more enjoyable for everyone.
