

We Show Up

We Bring It

We Do It Right

Retina Consultants of MN

RCM specializes in the medical and surgical treatment of disorders involving the retina, macula and vitreous. Because of the highly specialized nature of our services, most of the patients seen in their offices have been referred to them by other eye care providers and physicians.

THE CHALLENGE

Retina Consultants embarked on a significant project by deciding to lease a new building that required a remodel. The project specifications included the installation of an automatic sliding entrance and a loading dock door that seamlessly matched the existing architecture.

OUR SOLUTION

Heartland took on the challenge by installing a custom-colored door that perfectly complemented the existing exterior. Additionally, a new automatic sliding door was installed at the main entrance, enhancing both functionality and aesthetics.

RESULTS ACCOMPLISHED

The newly installed sliding door, enhanced with a stylish film, seamlessly integrated into the space, adding a touch of elegance. The custom exterior door matched the existing structure so perfectly that it is virtually indistinguishable from the original.
