

Success Story

Ben's Structural Fabrication, Inc.

THE CHALLENGE

This project focused on optimizing space, enhancing functionality, and creating a cohesive work environment. Dale Gruber Construction partnered with industry experts to deliver high-quality solutions, incorporating CRL Laguna Series sliding glass doors and transom glazing for both aesthetics and performance.

OUR SOLUTION

Heartland Glass collaborated closely with the project team, leveraging technical expertise to integrate the CRL Laguna Series seamlessly. As a trusted subcontractor, we ensured precision, reliability, and tailored solutions that met both functional and aesthetic goals.

RESULTS ACCOMPLISHED

Through expert execution and collaboration, Heartland Glass delivered a refined and functional space. The CRL Laguna Series doors and transom glazing enhanced workflow and aesthetics, reinforcing our reputation as a dependable subcontracting partner.

WHY WAS HEARTLAND GLASS BEST SUITED FOR THE WORK?

Guided by our core values—We Show Up, We Bring It, and We Do It Right—we took a hands-on, solutions-driven approach. Our local presence ensured quick turnarounds and responsive service, keeping the project on track. With glazing expertise and a commitment to craftsmanship, we delivered a seamless installation that exceeded expectations.
