

Success Story

We Show Up

We Bring It

We Do It Right

Lower Sioux Intergenerational Cultural Incubator

THE CHALLENGE

Hasslen Construction Company needed a subcontracting partner with the precision to match the intricate precast pattern on the scrim panels across the exterior, interior storefront, curtainwall, and hollow metal borrowed lites. Achieving both aesthetic and functional consistency required expert craftsmanship and technical proficiency—making Heartland the perfect partner.

OUR SOLUTION

Through a strategic partnership with Industrial Louvers, Heartland delivered the precise execution needed for the building's distinctive scrim panel design. By combining design expertise with high-quality fabrication, we ensured the architectural vision was realized with both aesthetic appeal and structural integrity.

RESULTS ACCOMPLISHED

Heartland integrated the scrim panels with the precast walls, achieving a cohesive design. Expert craftsmanship, quality installation, and attentive service met all glazing requirements, delivering a polished final result that exceeded expectations.
